

Dokumentasi API: Update Status & Finance Approval

Dokumen ini secara khusus merinci cara melakukan perubahan status pengiriman dan persetujuan finance (Term of Payment) pada pesanan.

1. Update Status Pengiriman (Order Status)

Endpoint ini digunakan untuk memperbarui status perjalanan/pengiriman sebuah pesanan. Status yang diizinkan adalah: pending, processing, shipped, delivered, completed, cancelled.

Detail Endpoint

- **Method:** PUT
- **URL:** `/api/orders/{id}/status` (ID bisa berupa UUID dari id tabel orders, maupun order_number)
- **Headers:**
 - Content-Type: application/json
 - X-Token: (Token autentikasi session user)

Contoh Request (cURL)

```
curl -X PUT https://dev.rasaconnect.com/api/orders/01a07c49-9576-708a-960d-6b38ab3955b2/status \
-H "Content-Type: application/json" \
-H "X-Token: eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJ1c2VyX2lkIjoiazjQ3YWMxMGlt..." \
-d '{
  "order_status": "shipped"
}'
```

Contoh Response (200 OK)

```
{
  "success": true,
  "message": "Status pengiriman berhasil diperbarui.",
  "data": {
    "id": "01a07c49-9576-708a-960d-6b38ab3955b2",
